

Cross-Systems Engagement

1. WIOA ITAs are just one of many sources of federal support for training & credential attainment.

Not always clear who learns about ITAs and why individuals choose ITAs over other options (e.g., Pell, tax credits, loans, state programs)

2. Non-public support, especially employer assistance, often overlooked.
3. PIRL a treasure-trove of data that should be linked to other datasets for a comprehensive view of training outcomes.
